Mobilization of Deposits by Public Sector Banks in Uttar Pradesh

2011. DR. BAPU KALDATE :
SHRI SANJAY DALMIA :
MAULANA OBAIDULLAH KHAN AZMI :
SHRI ISH DUTT YADAV :

Will the Minister of FINANCE be pleased to state :

(a) the details of deposits mobilised by the public sector banks during the last three years, state-wise;

(b) whether it is a fact that the public sector banks in Uttar Pradesh have mobilised more deposits in comparison to the other states;

(c) if so, whether the investment in Uttar Pradesh is less as compared to the deposits mobilised; and

(d) if so, the reasons therefor and corrective steps proposed to be taken in regard thereto?

THE MINISTER OF STATE IN THE MINISTRY OF FINANCE (SHRI M.V. CHANDRASHEKHAR MURTHY) : (a) and (b) State-wise deposits of the public sector banks for the last three years are given in the statement (*see* below). The deposits of these banks in Uttar Pradesh are higher than in many other states.

(c) and (d) The Credit Deposit Ratio (CDR) of public sector banks as on 31st March, 1995 in Uttar Pradesh in 34.33 per cent as against the All India average of 59.38 per cent.

The reasons for low CDR can be attributed mainly to low credit absorption capacity, lack of adequate infrastructural facilities, tendency on the part of major industries like sugar to opt for alternate sources of credit rather than from banks. Reserve Bank of India (RBI) had appointed a High Power Committee to look into the cause of low CDR in Uttar pradesh and to suggest measures to improve the same. On the basis of the recommendations of the Committee, meeting were held in the state and definite time bound programmes for credit disbursal in identified areas were chalked out. RBI has also advised the banks to show improvement in this regard and the banks have responded well with definite action plans to improve lending operation which will lead to boosting the CDR in the State.
